^{*} **16.** Write a letter to the Principal of your polytechnic requesting him to provide canteen facilities on the campus.

17. Read the following passage and make notes :

Yoga is good for the mind and body. Regular practice of yoga helps people improve their balance and stamina. Although you won't really get out of breath, like you might be playing football or running, it does help to keep your heart healthy and you can lose weight. It can also help with the back pain. The breathing taught in yoga can help people to reduce stress and anxiety. There are lots of different possible breathing patterns you can do. Yoga also

improves ^{*} concentration and helps people to sleep better, so it is great for anyone who is under pressure at work or in their studies.

There are lots of different types of yoga, so you can choose what suits you best. Hatha Yoga is often good for beginners, because you hold each position for a few breaths. In Vinyasa yoga you change position much more quickly and you might get out of breath. It is quite challenging if you have not done much yoga before. Bikram yoga is sometimes called 'hot yoga', because the room must be heated to around 40 degrees. As well as these, and the other more traditional forms of yoga, there are also some more unusual modern forms of yoga.

For example, you might enjoy 'laughter yoga', where people do breathing exercise and laugh about nothing in particular-laughter is very good for your health. Or what about 'Aeroyoga', where you do yoga while you are hanging from the ceiling? It is supposed to be very good for your back. Whatever kind of yoga you choose there are definitely some health benefits and you should have fun too.

- 18.** Read the following passage and answer the questions that follow briefly :

The Egyptians are the masters of preserving dead people's bodies by making Mummies of them. In short, mummification consisted of removing the internal organs, applying natural preservatives inside and out, and then wrapping the body in layers of bandages. And the process was remarkably effective. Indeed, mummies of several thousand years old have been discovered nearly intact. Their skin, hair, teeth, fingernails and toenails, and facial features are still evident. Their diseases in life, such as smallpox, arthritis, and nutritional deficiencies are still diagnosable. Even the fatal afflictions are still apparent.

- (a) Who are the masters of making mummies?
(b) What body parts are removed in making them?
(c) What organs are still visible in mummies?
(d) What diseases of those mummies can still be diagnosable?
(e) Pick the word from the passage that would mean : 'to find out'.
