## 3477

## BOARD DIPLOMA EXAMINATION, (C-09) OCT/NOV-2017 DEEE-FOURTH SEMESTER EXAMINATION

DIGITAL ELECTRONICS AND MICROCONTROLLERS

Time : 3 hours ]

[ Total Marks : 80

## PART—A

3×10=30

**Instructions** : (1) Answer **all** questions.

- (2) Each question carries three marks.
- (3) Answers should be brief and straight to the point and shall not exceed *five* simple sentences.
- **1.** Explain 2's complement subtraction with an example.
- 2. What are the basic gates? Draw their symbols.
- **3.** Draw the circuit of NAND latch and write its truth table.
- 4. List the different types of ROMs.
- **5.** State the function of the following :
  - (a) Data pointer
  - (b) Program counter
- 6. What are the functions of the following 8051 pins?
  - (a) ALE
  - (b)  $\overline{\mathrm{EA}}$
  - (c) PSEN

/3477

## www.ManaResults.co.in

- **7.** Explain SWAP A instruction with one example.
- 8. Define machine cycle and instruction cycle.
- 9. List the different addressing modes of 8051.
- **10.** Write an assembly language program to multiply two 8-bit numbers stored in the iRAM locations 40 H and 41 H. Store the result in 42 H and 43 H.

**PART—B** 10×5=50

**Instructions** : (1) Answer any five questions.

- (2) Each question carries **ten** marks.
- (3) Answers should be comprehensive and the criterion for valuation is the content but not the length of the answer.
- **11.** (*a*) Draw the block diagram of serial adder and explain its working with an example.
  - (b) Compare the performance of serial adder and parallel adder.
- **12.** (a) Draw the logic circuit and explain the operation of 4 2 encoder.
  - (b) State the need for A/D and D/A converters.
- **13.** (a) Briefly explain the data movement in the following registers with block diagrams :
  - (i) PISO
  - (ii) SIPO

/3477

- (b) Explain the operation of 4-bit shift-right register with diagram.
- **14.** Draw the diagram and explain the working of decade counter with truth table and waveforms.
- 15. (a) Draw and explain the bitwise description of PSW register.
  - (b) List the interrupts as per their priority and vectored addresses.
    - www.ManaResults.co.in

- 16. (a) Draw and explain the bitwise description of TMOD register.(b) Draw and explain the bitwise description of SCON register.
- 17. (a) Explain RET and RETI instructions.
  - (b) Compare among LJMP, AJMP and SJMP instructions.
- **18.** Write an assembly language program to divide the contents of memory location 2500 H by 2501 H. Store the result in 2502 H and remainder in 2503 H.
