

4426

BOARD DIPLOMA EXAMINATION, (C-14) MARCH/APRIL—2018 DCE—FOURTH SEMESTER EXAMINATION

QUANTITY SURVEYING-I

Time : 3 hours [Total Marks: 80

PART—A

 $3 \times 10 = 30$

Instructions: (1) Answer **all** questions.

- (2) Each question carries **three** marks.
- (3) Answers should be brief and straight to the point and shall not exceed five simple sentences.
- 1. State the units of measurements of the following items:
 - (a) Plain Cement Concrete for foundation
 - (b) Weather proof course
 - (c) Sand filling

/4426

- 2. List any three duties of Quantity Surveyor.
- **3.** Calculate the volume of earth work involved in cutting open trench of the following size:
 - length = 500m, Side slope 2:1, Depth of trench = 3m, Width of the trench at bottom=1.5.
- **4.** A canal is proposed to be formed as shown in Fig.1. Calculate the Lead and Lift.

[Contd...

5. A plot of 20m ×30m, calculate the quantity of earth work by using spot levels as shown in Fig.2. For general leveling of 90m R.L.

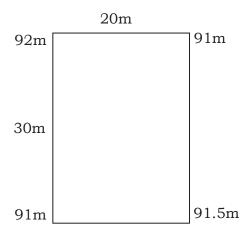

Fig. 2

- **6.** State the purpose of approximate estimate and give the different methods adopted.
- **7.** Prepare an approximate estimate of the hostel for 250 students if the area allowed per student is 10m². The plinth area rate is Rs. 3500/- per m².
- **8.** Plan and section of steps in front of a residential building is shown in Fig.3. Calculate the quantity of brick masonry required for steps.

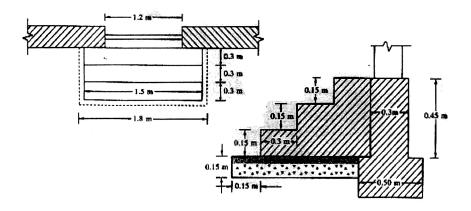

Fig. 3

9. Fig. 4 shows the plan and the section of a part of a compound wall. Calculate the quantity of Brick masonry required for footing and wall.

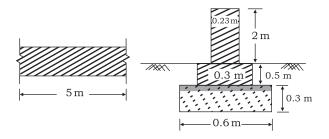

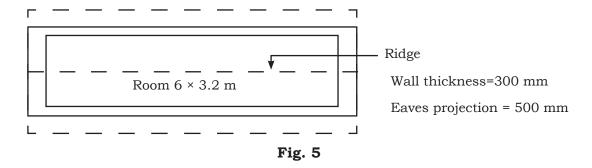

Fig. 4

- 10. The Plan showing gabled end is shown in Fig. 5. Calculate-
 - (a) Length of Ridge Piece
 - (b) No. of Common Rafters spaced @ 500mm C/C.

PART-B 5×10=50

- **Instructions:** (1) Answer any **five** questions
 - (2) Each questions carries ten marks
 - (3) Answers should be comprehensive and the criterion for valuation is the content but not the length of the answer.
- **11.** Write the General specifications for the following items of work:
 - (a) Earth work Excavation
 - (b) Floor finishes with ceramic tiles and Marbles

/4426 3 [Contd...

- **12.** For an embankment 60 m long of uniform gradient the height of bank is 3 m at one end and 1.8 m at the other. The width of embankment at top is 6 m and its side slopes are 1.5:1. Estimate the quantity of earthwork by
 - (a) Mid Sectional Method;
 - (b) Mean Sectional area method;
 - (c) Prismoidal formula.
- 13. From the particulars of a reservoir given below, calculate the capacity of a reservoir between the Sill level and M.W.L of the reservoir by (a) Trapezoidal rule (b) prismoidal rule.

| S.No. | Level in-m | Area in-Sqm | Particulars |
|-------|------------|-------------|-------------|
| 1 | 40.00 | 1,500 | Bed Level |
| 2 | 42.00 | 2,800 | _ |
| 3 | 44.00 | 4,200 | Sill Level |
| 4 | 46.00 | 6,500 | _ |
| 5 | 48.00 | 9,500 | _ |
| 6 | 50.00 | 12,000 | F.T.L |
| 7 | 52.00 | 15,000 | M.W.L |

- **14.** Prepare a preliminary estimate of a proposed building having plinth area 350 m². From the following data calculate the total cost of the building:
 - (a) Plinth area rate Rs. 1500/- per m²
 - (b) Add for water supply and sanitary fittings @ $12\frac{1}{2}$ %
 - (c) Add for electrification @ $7\frac{1}{2}$ %
 - (d) Add for architectural features @ 2%
 - (e) Add for unforeseen items @3%
 - (f) Add for fluctuation of rates @5%
 - (g) Add for petty supervision charges @3%
- **15.** Prepare a rough estimate for a proposed commercial complex for a municipal corporation for the following data:

Plinth area = $500m^2$.

Height of each floor = 3m.

No. of stories = Ground floor +2

Cubical Content rate = Rs. 1000/- per m³.

/4426 4 [Contd...

Provisions are given below:

- (a) water supply and sanitary fittings @ 8% of building cost.
- (b) Electrification @ 6% of building cost.
- (c) fluctuation of rates @ 5% of building cost

Provide the following provisions as percentage of total building cost:

- (d) Contractor's margin @ 10% of total cost
- (e) Petty supervision charges @ 3% of total cost
- **16.** Prepare the detailed estimate for the following items of work from the given Fig. 6:
 - (a) Earthwork Excavation for foundation
 - (b) Brick Masonry in CM (1:5) without deductions
 - (c) R.R. Masonry in C.M. (1:6) for Basement

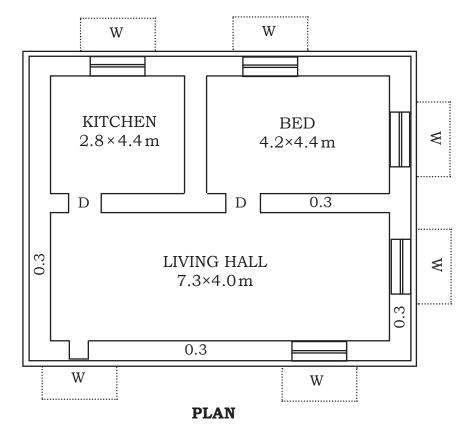

Fig. 6

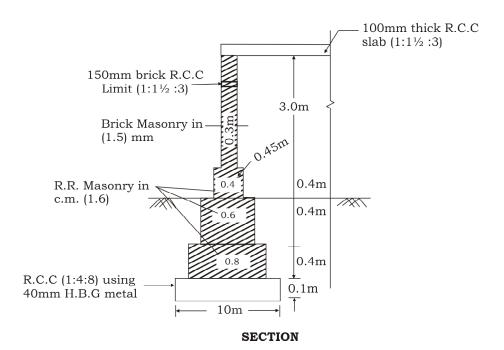

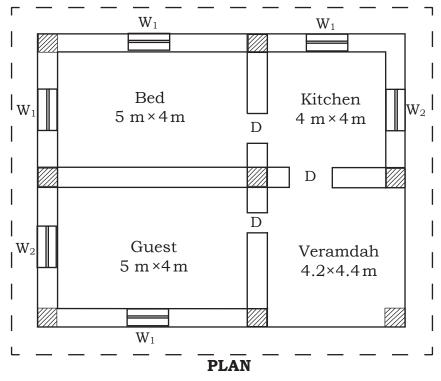

Fig. 6

- **17.** For enclosed Fig. 7 Calculate the quantities of the following items of work:
 - (a) Earth work excavation for all column footings
 - (b) P.C.C. (1:4:8) using 40mm H.B.G metal for foundations (under Columns only)
 - (c) R.C.C (1:1.5:3) using H.B.G metal for all column footings

/4426 6 [Contd...

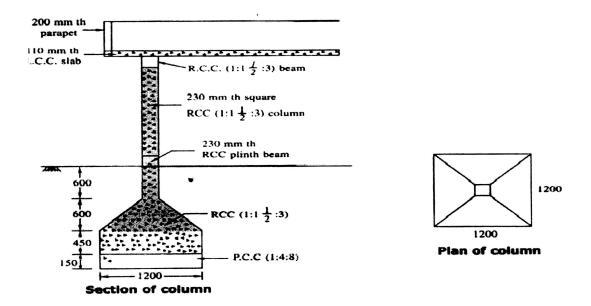

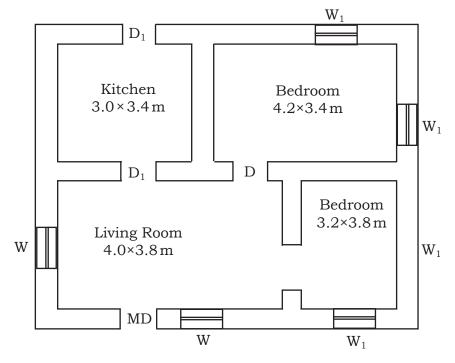

Fig. 7

- **18.** Prepare the detailed estimate for the following items of work from the given Fig. 8:
 - (a) R.R Masonry in footings
 - (b) Brick Masonry in CM (1:6) for super structure excluding parapet and without deductions for doors, windows and lintels
 - (c) R.C.C roof slab (1:2:4) 100 mm thick
