

Code No: **RT41089**

R13

Set No. 1

IV B.Tech I Semester Supplementary Examinations, February/March - 2018

NANOTECHNOLOGY

(Chemical Engineering)

Time: 3 hours

Max. Marks: 70

Question paper consists of Part-A and Part-B

Answer ALL sub questions from Part-A

Answer any THREE questions from Part-B

PART–A (22 Marks)

1. a) Write about history of nano materials. [4]
- b) What are the advantages and disadvantages of Bottom-up approach? [4]
- c) Explain about micro electro mechanical systems. [4]
- d) Write about the nano indentation. [3]
- e) Explain about aqueous forces in acid base system. [4]
- f) Write about depletion interactions. [3]

PART–B (3x16 = 48 Marks)

2. a) Explain about the effects of nano dimensions on materials behavior. [10]
- b) Write about microstructure features. [6]
3. Explain about Top-down approach in detail. [16]
4. a) Explain about applications of nano materials in paints and energy industries. [8]
- b) Describe the impact of nano materials in defense and space industries. [8]
5. a) Explain about Atomic Force Microscopy (AFM) to characterize nano materials. [8]
- b) Explain about Scanning Tunneling Microscopy (STM) to characterize nano materials. [8]
6. a) Explain in detail double layer forces in acid phase system. [8]
- b) Describe about importance of double layer forces in acid base system. [8]
7. a) Explain about hydro phobic forces layering in detail. [12]
- b) Write the applications of nano scale particles. [4]
